

Agenda June 11<sup>th</sup>, 2019

# Aneurysm Academy

Johnson & Johnson Institute, Hamburg, Germany

# Welcome

This course will provide you with the opportunity to learn from an expert faculty on how to treat neurovascular aneurysms with coils and stents. They will share their knowledge and experience on how to successfully treat both simple and complex aneurysms.

You will learn about patient selection, treatment planning, coil selection and sizing, considerations for treating ruptured and unruptured aneurysms.

The afternoon session provides the opportunity to learn coiling technique, tips and tricks using fluoroscopy and silicon flow models in the angio lab.

This course will benefit young neuro interventionists who wish to enhance their knowledge and skills in treating haemorrhagic neurovascular disease.

Yours sincerely,

**Aidan Ryan**

**Faculty**

**Dr. Jan Hendrik-Buhk**

Universitätsklinikum  
Hamburg-Eppendorf,  
Hamburg, Germany

**Dr. Laurent Estrade**

Hospital Salengro,  
CHU de Lille,  
Lille, France

Note: a good understanding of English is recommended.

## Day 1

---

**08:00** Welcome, course objectives, and introduction

---

**08:15** **Coiling basics**

Clinical evidence & indications for treatment

Aneurysm anatomy and causes

Ruptured / unruptured

Patient selection & treatment planning

Which coil and what size

Framing, filling and finishing

Technique tips and tricks

Pharmacological regimen

Case reviews – regular aneurysms

---

**10:15** **Coffee**

---

**10:45** **Intracranial coiling and stenting**

Indications, selection process & treatment planning

Complications avoidance and management

Case reviews – complex aneurysms

---

**12:45** **Lunch**

---

**13:30** Practical learning: devices, flow model & fluoroscopy in angio lab

---

**16:00** Summary and final take home messages

---

**16:30** Course close

---
