

## MGB-OAGB INTERNATIONAL CLUB CONGRESS V ANNUAL CONSENSUS CONFERENCE-2018

### CONGRESS PROGRAM

**Dear Friends and Colleagues,**

The excellent balance between safety and effectiveness has led to an exponential increase in the performance of the Mini-gastric Bypass (MGB) and One-Anastomosis Gastric Bypass (OAGB) across the globe. Standardization and unanimity in perioperative care and appropriate follow-up are in order. We hereby invite you to attend the V Annual MGB-OAGB Consensus Conference to be held June 28<sup>th</sup> - 29<sup>th</sup>, 2018, in Valladolid, Spain.

The Conference will provide a wide variety of sessions and activities designed to meet the highest possible standards of education and training for our surgeons and allied health personnel with the overall goal of improving the safety and wellbeing of our bariatric/metabolic patients. This educational offering will focus on several topics of interest which will include:

*This session is exclusively dedicated to all those attendees with a poor experience with MGB (less than 50 cases). It is reserved to all the surgeons who will make request at no extra cost. It is scheduled to improve learning concepts by direct participation of all attendees. It has been thought to provide tips and tricks to the execution of a perfect MGB/OAGB through simulations and videos. Four top MGB/OAGB surgeons are involved as teachers.*
