

**Agenda | Oct 25-26**

# In-Hospital Training: Complex Cases in Gynaecological Oncology

## **Venue:**

Hospital Universitari i Politècnic (HuyP) La Fe  
Valencia, Spain

# Welcome

Dear participant,

Welcome to the Gynae Oncological workshop designed to help you deepen your knowledge and skills in treating gynaecological cancers through discussions and interaction with the faculty during the “live” surgery sessions in the OR

The objective of this course is to increase confidence of the retroperitoneal anatomy, considering pelvis and aortic structures. The safe approach of retroperitoneal aortic dissection, together with the pelvic and aortic intraperitoneal approach will be shown with tips and tricks using advanced hemostats and energy technology. The workshop will focus on:

- . dissection of pelvic avascular spaces
- . pelvic and aortic dissection
- . tips and tricks of laparoscopy in obese women
- . managing complications during oncology procedures.

I wish you a pleasant stay and very instructive course!

Yours sincerely,

**Maja Pavlek**
