

DePuy Synthes Spine Innovation Experience

REGISTRATION FORM 26 – 27 OCTOBER 2017

The aim of this event is to engage surgeons in a highly interactive course which will be divided in 2 parts, one more theoretical and the other one more practical. The breakout sessions in the morning will cover the Surgeon view of Expedium Verse and its capabilities and our faculty experience in pediatric and adult deformity cases with Expedium Verse. In the afternoon the group will rotate between hands on workshop with spine models, Navigation and Power for Verse, an interactive session based around how to address the most relevant complications associated with deformity surgery, from a tissue management point of view. Finally, the third session will allow the surgeons to discuss openly with our engineers the concepts behind developing this system. We are aiming to have three of the most widely renowned surgeons from our region. These surgeons are all Expedium Verse users who have all presented at the largest meetings across the World and have been involved in events ranging from Professional education, Congress symposia, AO events and marketing events. These surgeons will be confirmed once we receive signed contracts.

HCC approval number: **GOPST01039**

	Delegate	DPSY employee

(*) Special dietary requirements, allergies or similar that we need to be aware of for the organization of the event?

Responsibility in terms of organization

EMEA Marketing will:

- organize and make sure that Meeting Rooms and Kits / Instruments are reserved
- organize group dinner
- coordinate catering at Headquarters
- organize logistics of required instrument sets
- provide brochures, pads and pens, as well as pull-ups

Local organization will be responsible for:

- HCC and contract request. Local lead will need to ensure the local HCC awareness and their approval as necessary for the agenda and value transfers in advance
- Booking Flights and ground transportation for the participants and delegates
- Secure payment of Hotel H4, Solothurn, booking reference: **Innovation Experience**

Insurance

During the event, the Trainee is not covered by insurance against illness, accident or liabilities through DePuy Synthes SPINE EMEA. It is the Trainee's obligation to ensure and eventually conclude sufficient valid international health, accident and liability insurance for the duration of the meeting / Wet Lab.

Agenda Innovation Experience EXPEDIUM® VERSE
