

Agenda | September 12 – 13, 2017

# Mentor® Science of Breast Implants

Leiden, The Netherlands

# Welcome

Through evidence-based perspectives from top experts in the field, this program provides participants with up-to-date scientific information and clinical evidence regarding breast implant safety and quality.

The course is held in Mentor's manufacturing facility, where participants can observe manufacturing & quality controls. The program features a hands-on session for experiential learning regarding product quality and safety.

This is a highly interactive course, and participants are encouraged to discuss current topics, trends and concerns regarding breast implants and patient safety.

We look forward to welcoming you to Leiden.

Yours sincerely,

**Debbie Battat**

Professional Education Manager,  
Europe, Middle East & Africa  
Mentor

Medical Leader,  
CSS – J&J Medical  
USA

## Day 1 Didactic Session

September 12, 2017

**12:45** Lunch & Welcome

**13:45** Introduction

Mentor Team

**14:00** Quality & Innovation

John Canady

**14:30** Long-Term Clinical Performance & Insights

Roger Wixtrom

**15:15** Q & A / Discussion

**15:30** Coffee Break

**16:00** Texturing, Part I: The Science

John Canady

**16:30** Texturing Part II: The Latest Clinical Evidence

Roger Wixtrom

**17:15** Q & A / Discussion

**17:30** End of Day 1

**20:00** Dinner

## Day 2 Practical Session, Mentor Manufacturing Facility

September 13, 2017

**09:00** Production and Quality Assurance Stations  
Hands-on Texturing Workshops

**11:45** Course Evaluation

**12:00** Lunch

**13:00** End of Day 2
